

## Acknowledgements

I'd like to thank my advisor, Hyo Gweon, and my collaborator, Sophie Bridgers for their guidance, encouragement, mentorship, and excellent discussions. I'm so grateful to have gotten to spend the past two years working with such brilliant and thoughtful women.

Thank you also to my second reader, Mike Frank, for the helpful comments and whose class taught me that everything is easier in RMarkdown.

Thanks also to the many different confederates who helped with data collection: Fernanda Kramer, Maria Marta Rey Malca De Habich, Ayushi Chandaria, Natalie Wu, Huda Akef, and Grace Bennett-Pierre.
